THE TRANSVAAL.

PROSPECTS OF PEACE VANISHING.

MR. HOFMEYER'S MISSION TO PRETORIA ABANDONED.

BOERS BEHAVING LIKE FRENZIED SAVAGES.

LONDON, Oct. 6.

Dr. Reitz, the Transvaal Secretary of State, declares that the prospects of peace are vanishing.

President Kruger, in the course of an interview, stated that the Boers would not advance unless the sending of heavy reinforcements by the British continued.

Boer women are practising to shoot. They are very bitter in their hostility to the British.

An agitator named John McBride is appealing for volunteers for the formation of an Irish brigade at Pretoria. He declares that it would be a glorious opportunity for Irishmen to retaliate upon the Boers.

The Boers are behaving like frenzied savages towards the refugees in the towns, pointing rifles at them, striking women and children, and seizing babies in order to provoke the fathers to action.

Thousands of destitute refugees from the Transvaal are at Lorenzo Marques. A transport has been sent to convey them to the south.

The impression exists that the unpopularity of the Orange Free State leaders and commissariat difficulties will delay an advance by the Boers.

MINING TROUBLE AT KALGOORLIE.

ALLIANCE ASSUMES THE AGGRESSIVE.

KALGOORLIE, Friday.

The trouble recently arising at the alluvial claim holders on the Adelaide and adjacent leases and the lease-holding companies through whose properties the railway is passing, has been the subject of the case before the Full Court, has abruptly ended.

The alluvialists have again assumed the aggressive, and seem determined to continue to force their way through the alluvial claims.

THE TRANSVAAL.

THE OUTLOOK MORE REASSURING.

EFFORTS TO SECURE PEACE.

OFFER OF MEDIATION BY MR. SCHREINER.

MR. REITZ AWAITS FINAL PROPOSALS.

BOERS INSTRUCTED TO ACT ON THE DEFENSIVE.

THE DEFENCE OF NEW-CASTLE.

CANADA'S POSITION.

LONDON, Oct. 5.

Sir Wilfrid Laurier, Premier of Canada, denies that the Dominion Government has offered troops to Great Britain for service in the Transvaal.

At Great Britain, he explained, the fighting, any troops despatched would arrive too late in South Africa to take part in the war, otherwise there would be time to obtain Parliamentary sanction.

Owing to inability to send sufficient troops to Newcastle, in Natal, the Governor, Sir W. F. Hely-Hutchinson, has advised the Mayor not to defend the town. Ample reparation would be made in the event of losses.

The "Daily Telegraph" correspondent states that a general advance of the Boer artillery has begun at Volksrust, near the north-west border of Natal.

A number of armed kaffirs accompany the troops.

The women and children have quit Newcastle. It is officially announced that there is no immediate cause for alarm.

Major-General Hunter, who is to be chief of Sir Redvers Buller's staff, declares that the Natal and Indian contingents have made the situation secure.

PROCLAMATION AGAINST TREASON.

LONDON, Oct. 5.

Mr. W. P. Schreiner, Premier of Cape Colony, is disinclined to issue a proclamation prohibiting treason at Cape Colony.

THE GOLD SEIZURE.

LONDON, Oct. 5.

The gold commandeered by the Transvaal authorities, which in the Transvaal Rand mines, amounted to £280,000, and now £200,000 as previously stated.

AGITATION FOR THE RECALL OF DR. LEYDS.

LONDON, Oct. 6.

Mr. J. H. Hofmeyr, the leader of the Afrikaner party in the Cape Parliament, and Mr. J. G. Kotze, formerly Chief Justice of the Transvaal, support the demand for the recall of Dr. Leyds, the Transvaal Plenipotentiary in Europe.

PETITION TO THE QUEEN.

LONDON, Oct. 6.

Forty Dutch members of the Cape House of Assembly petitioned the Queen to relinquish interference on the part of Great Britain in the Transvaal, and to instruct the British Government to proceed to a joint inquiry, as they were convinced that an adequate franchise would be forthcoming.

Mr. Chamberlain, in reply, stated that Great Britain sought on behalf of the non-Dutch residents of the Transvaal similar rights to those enjoyed by the Dutch in the Cape. Every consideration had been shown towards the Boers.

He deeply regretted the failure of peaceful efforts, and declined to acquiesce in the prayer of the petition.

BRITISH PARAMOUNTCY.

LONDON, Oct. 6.

Sir Edward Reed, in a letter to the "Times," protests against a section of the Liberals supporting "a monstrous tyranny." Mr. Gladstone and the Boers themselves in 1884, he says, never imagined that the paramountcy of Great Britain would be surrendered.

MR. SCHREINER OFFERS TO INTERMEDIATE.

LONDON, Oct. 6.

Mr. W. P. Schreiner, the Premier of Cape Colony, has offered to enter upon further mediation with a view to peace.

AMERICAN MEDIATION.

LONDON, Oct. 6.

President McKinley has replied to the position from notable personages in the United States requesting him to interpose in the Transvaal difficulty on the basis of the resolutions passed at the International Peace Conference at the Hague. The President intimates that he would mediate, and has requested him to do so.

TRANSAVAL ENVOY.

LONDON, Oct. 6.

President Kruger has declared that the Transvaal aspires to be totally free. He complains that the Boer Executive will not allow him to participate in the fighting which is expected to take place.

SIR REDVERS BULLER.

LONDON, Oct. 6.

Sir Redvers B. Buller, the Commander-in-Chief of the British forces in South Africa, has proceeded to Balmoral to bid farewell to the Queen prior to his departure for Cape Town.

MR. REITZ AWAITS ENGLAND'S FINAL PROPOSALS.

LONDON, Oct. 6.

Mr. T. W. Reitz, the Transvaal Secretary of State, declares that the Boer

authorities came in this market for supplies, it would mean big returns to producers while the demand continued.

No argument is necessary to emphasize the statement made that high prices will rule in South Africa for produce, but the following extract from an advertisement in the "Daily Telegraph" is of interest. As regards the prices ruling for produce in South Africa, cable advices state that during the past few days the market has been very quiet. KALGOORLIE, Friday.
The September output of the Ivanhoe Gold Corporation was as follows:—Milled, 4455 tons of ore or 6580z. sdwt. 12gr. of gold; cyanided, 2868 tons or 1772oz. sdwt. 12gr.; slimes treated, 3047 tons or 1100oz. 6dwt. 12gr. Total, 4455 tons, yielding 9492oz. 17dwt. 12gr. bullion, an average of 5oz. 2dwt. 10gr. per ton. The average weight of gold from this mine to date is 5 tons 3oz. 12lb. The return from Hancock's Star for last month

The recent discovery in Bottomly's Boomerang and Womers leases is fully justifying the favourable opinions formed of it. Since first striking the rich suite of ore the drive has been continued for over 500 ft. to the southward, the vein continuing of high grade, and at times nice specimens of free gold and occasionally clots of mustard gold appear in the side.

The Brown Hill Company has driven on the lode No. 4 level for 1300 ft. parallel with the Brown Hill extended boundary, and 3 ft. distant from it. The ore

ore is keeping parallel with the boundary cross-section. The course of the lode at a very slight angle, and at a slight dip, from the starting point. It has now reached the footwall lode. At this point the ore is being carried through the lode to determine its width. The result of this drive assures for the Brown Hill Extended a length of 1300 ft. of ore. The No. 1 level in the Brown Hill Extended is being pushed in the direction of the ground where the shallow occurrence of this chute of ore is expected to be met with.

do not think you can get the stone above gold and
silver so well. The New Golden Gate has crushed
100 lbs of stone obtaining 350lb of amalgam

MOLONG, Friday.
At the Burdeff Limited gold mine, Coner's Rocks everything is working satisfactorily on and below surface. The stampers are continually grinding, and good progress is being made throughout the mine. The reef in the stope at No. 3 level is carrying payable gold, and small mineralised spurs in the country are showing nice gold. At No. 4 level the reef is improving in size and richness of ore with every foot of driving, and lift of driving has been accomplished without a break in the reef or fault in the
